EXPERIENCE

- **INFOLABZ IT SERVICES PVT. LTD.**

ReactJS Intern

JUN, 2024 - JUL, 2024

I gained experience with React, focusing on API data fetching, React hooks and I also worked on various assignments that helped solidify my understanding of these technologies.

HOBBIES

- Like to read about phsycology
- Playing Cricket
- Listening to Music

AREA OF INTEREST

- Web Development
- Competitive Programming

ABOUT

I am passionate about building web applications using the MERN stack, with experience in frontend technologies like React.js and backend technologies like Node.js. I have a strong understanding of Object-Oriented Programming (OOP) and Core Java. As a quick learner, I am eager to apply my skills to develop effective and innovative solutions.

PROJECT

- **Notes-Keeper**

link: <https://prasiddhi2003.github.io/google-keep/>

This project is a versatile note-taking website designed to allow users to create and delete notes effortlessly.

- **Book Store Project**

link: <https://github.com/prasiddhi2003/book-store>

This project is designed to manage and explore a collection of books. Users can seamlessly add, update, delete books and can also fetch brief info. for particular book.

- **Expense Tracker**

link: <https://prasiddhi2003.github.io/expense-tracker/>

This project is a user-friendly application designed to help individuals manage their finance through adding their earnings and spendings.

- **Real Estate**

This website allows property owners to post listings with detailed information, including images. Buyers and renters can then search for properties based on their preferences. The platform connects property seekers and owners efficiently.

SKILLS

- Object Oriented Programming
- Core Java
- Database Management System
- MERN stack
